SUMMARY

- Junior Front-End Software Developer with foundational skills in HTML, CSS, and JavaScript.
- Experienced in virtual assistance, project planning, and client communication.
- Skilled at creating interactive and user-friendly web pages.
- Strong organizational abilities and proven adaptability to new challenges.
- Committed to continuous learning and growth in front-end development.
- Enthusiastic about contributing to innovative tech solutions in the tech industry.

WORK EXPERIENCE

Virtual Assistant (Freelance)

September 2024 – Present

Responsibilities:

- Managed research projects for clients, including data organization, report creation, and task prioritization.
- Created and presented reports in Google Sheets, including a recent project analyzing demographics and city data for California.
- Enhanced client satisfaction through effective communication and timely delivery of high-quality work.

Front-End Developer (Self-Driven Projects)

March 2024 – Present

Projects:

- Developed interactive web pages using HTML and CSS, focusing on creating intuitive, user-friendly designs.
- Implemented JavaScript functionality to improve interactivity, such as functional buttons and navigation.
- Continuously expanding skills in front-end development, focusing on enhancing interactivity and design.

Primary School Teacher

October 2013 — September 2023

Previous Role in Education

Responsibilities:

- Taught Mathematics and Swahili, engaging students with interactive lessons tailored to varying learning needs and styles.
- Designed lesson plans, assessments, and study materials to improve student understanding and performance in Mathematics and Swahili.
- Provided one-on-one support to students, fostering a positive learning environment and boosting academic confidence.

- Assisted with classroom management, grading, and administrative tasks, demonstrating strong organizational and time-management skills.

EDUCATION

Shanzu Teacher's Training College, Mombasa
Diploma in Teaching | Credit 3

2014 – 2016

- Specialized in educational methodologies, classroom management, and curriculum development
- Trained to teach Mathematics and Swahili, with a focus on creating engaging and effective lesson plans

Virtual Assistant Course, ALX Africa

2024

- Emphasis on project management, client communication, and digital organization

Front-End Development (Self-Learning)

Current

- Independent study focused on HTML, CSS, and JavaScript, with projects to enhance front-end skills

SKILLS

- **Front-End Development:** HTML, CSS, JavaScript (beginner level)
- **Project Management & Organization:** Task prioritization, project planning, and deadline management
- **Virtual Assistance:** Research, client communication, report generation, and organization
- **Tools & Software:** Git/GitHub (version control basics), Google Workspace, Microsoft Office

PROJECTS

- **Interactive Web Page Creation:** Designed a personal project to showcase front-end skills, utilizing HTML, CSS, and beginner-level JavaScript.
- **Personal Portfolio Website:** Developed a fully responsive portfolio website to highlight programming skills, projects, and achievements using HTML, CSS, and JavaScript through which I implemented interactive features and optimized the site for seamless navigation and mobile-friendly design. I also Demonstrated knowledge of front-end technologies and user-centric design principles.
- **Research Report Project for Mr. Agiye:** Created a report on California's largest cities, featuring geographical data, demographics, and visualized statistics via bar charts.
